

INTERNATIONAL ILLUSTRATED PARTS LIST INDEX

July 1999

The catalog number is for quick reference only. Always confirm proper parts list selection by matching the nameplate number or type number on this index with the number on the tools nameplate.

A Technical Bulletin has been issued for those models with a "T" in the Service column. Please review the bulletin(s) prior to proceeding with a repair or ordering parts.

The Service column also contains the approximate last serviceable year for a particular model. Parts may no longer be available after that year. Models without a year listed are still in production and fully serviceable. Models not listed on this index are considered no longer serviceable.
